The screenshot shows a web browser window with the URL <https://www.ansys.com/academic/students>. The browser's address bar and tabs are visible at the top. Below the navigation bar, there is a large 3D rendering of a mechanical part, possibly a valve or a pump component, with a color gradient from red to blue. Below the image, the text "Ansys Student" is displayed in bold. Underneath, a paragraph describes the Ansys Student bundle, mentioning it includes Ansys Workbench-based products like Ansys Mechanical, Ansys CFD, Ansys Autodyn, Ansys Discovery, Ansys Rocky, Ansys optiSLang, Ansys Speos, and more. It states that the product is downloaded by hundreds of thousands of students globally every year and includes some of the most-used products commercially. Users of this product may also find value in downloading our Ansys LS-DYNA Student or Ansys Rocky Student Add-Ins product. At the bottom of the section, there is a blue button labeled "FREE DOWNLOAD NOW" with a right-pointing arrow.

Ansys Student - Free Software Download

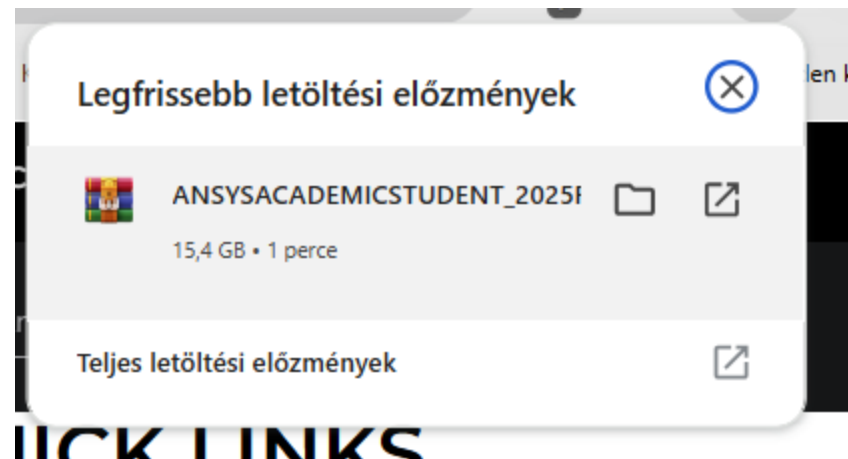

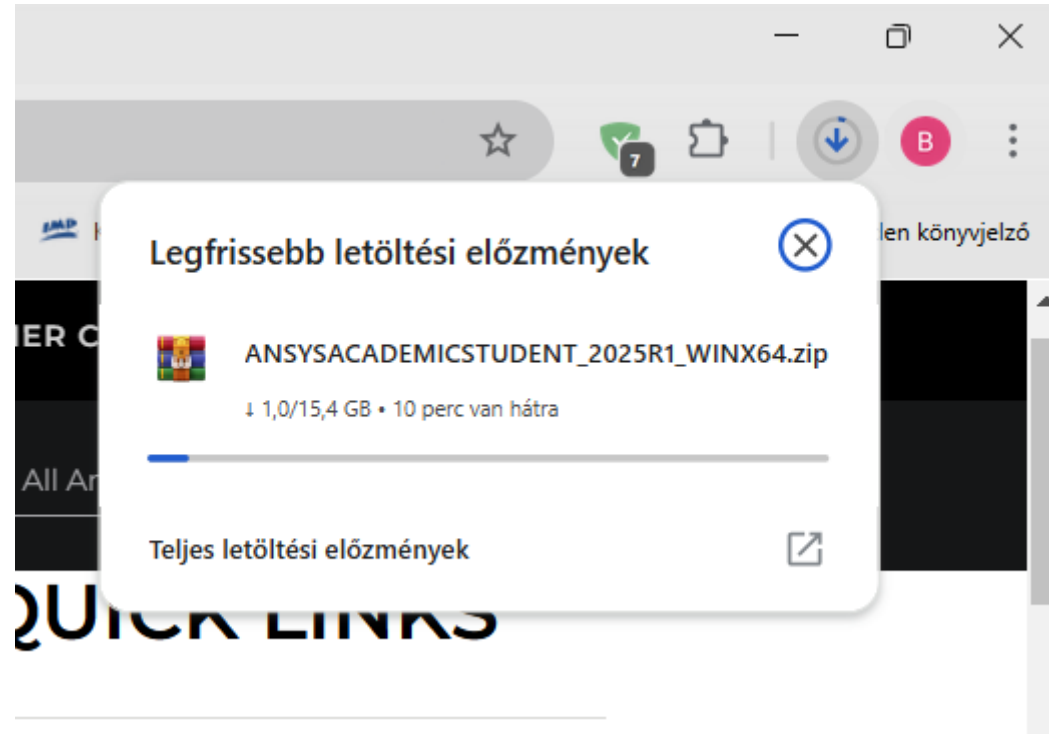

Ansys Student offers free access to our Ansys Workbench-based bundle. This bundle includes Ansys Mechanical, Ansys CFD, Ansys Discovery, Ansys SPEOS, Ansys Autodyn, Ansys optiSLang, and Ansys SpaceClaim, Ansys Rocky, and much more (see “What’s Included” below for a complete list). Used by students across the globe, Ansys Student can be leveraged to enhance your skill set with some of our most-used products.

From 2023R1 on, Ansys Discovery is now included in Ansys Student. Ansys Discovery offers free access to our simulation-driven design tool that combines instant physics simulation, proven Ansys high-fidelity simulation and interactive geometry modelling in a single user experience. This is the perfect product for a student just getting started with simulation—it lets students learn about physics without the time investment required to learn how to use a complex simulation tool.

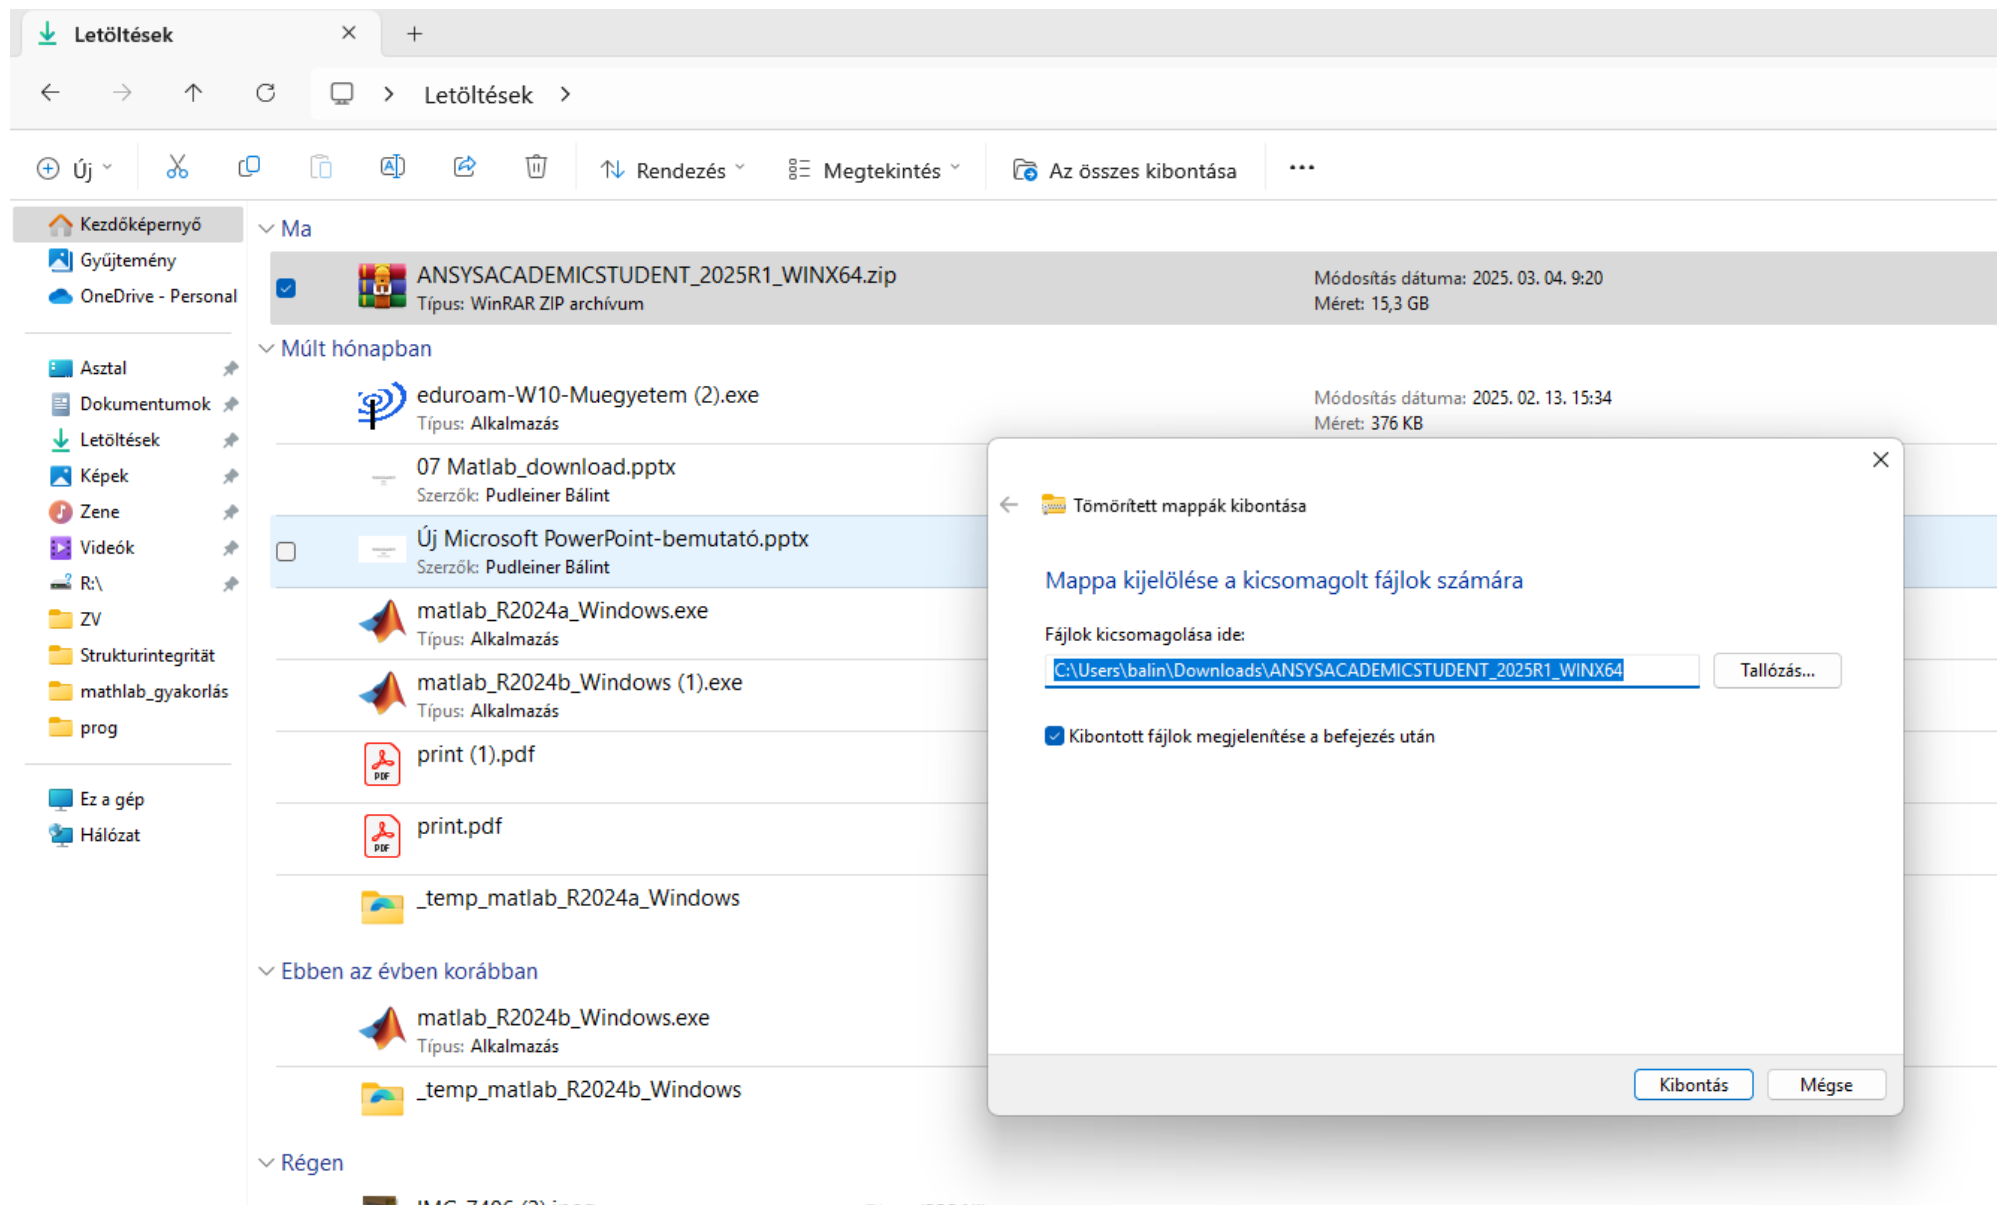

Terms of Use: Free student downloads are for educational use only and may only be used for self-learning, student instruction, student projects, and student demonstrations.
